

POWER DELIVERY SERVICES GROUP SETS DATES FOR 2007 TRANSMISSION LINE AND SUBSTATION ENGINEERING COURSES

February 10, 2007 - The Sargent & Lundy Power Delivery Services group has set the dates for its highly regarded Transmission Line and Substation Engineering courses. Sargent & Lundy's senior engineers have conducted the courses since 1994 for engineers and designers from domestic and international electric power companies. Attendees obtain 1 Continuing Education Unit (CEU) for every 10 hours of classroom instruction and a Certificate of Completion. In addition, the courses are also available to utilities at their offices.

The 4-day courses are open to utility staff and provide practical, project-oriented training for both entry-level engineers and the experienced engineer new to the design, specification, and installation of transmission and substation facilities. To date, more than 600 industry professionals from 100 companies have participated.

The 2007 course dates are:

Substation Engineering Course

March 5-8, 2007 - Chicago, IL

October 29-November 1, 2007 - Chicago, IL

Transmission Line Engineering Course

March 20-23, 2007 - Chattanooga, TN

November 12-15, 2007 - Chicago, IL

Detailed information on the course sessions is at <http://www.sargentlundy.com/power/course.asp> along with registration forms and fee information. Or, contact Mary Jo McNamara at 312-269-2117, mary.j.mcnamara@sargentlundy.com
