

SARGENT & LUNDY TEAM AWARDED 500-KV INTERCONNECTION PROJECT

Chicago, IL, July 8, 2005 - Sargent & Lundy LLC announced that it has signed a contract with San Diego Gas & Electric Company (SDG&E) for a broad range of services related to a proposed 500-kV Transmission Line Interconnection Project. The Sargent & Lundy Team includes primary subcontractors Greystone Environmental, Denver, CO, who will lead the environmental, public outreach, and licensing efforts; and Finley Engineering, Portland, OR, who will provide land acquisition support and surveying services.

The scope of work in the contract with the Sargent & Lundy Team is divided into three phases:

- I - Route evaluations, public outreach, environmental licensing, and preliminary engineering
- II - Detailed engineering, procurement support, and land acquisition support
- III - Construction management

Sargent & Lundy LLC, Chicago, IL, is a worldwide leader in professional engineering and consulting services for the electric power industry and has been dedicated exclusively to serving electric power and energy business clients for 114 years. Greystone Environmental, founded in 1983, has a complete interdisciplinary staff of specialists with broad capabilities for environmental assessment, planning, permitting, and monitoring for a wide range of project types. For more than 50 years, Finley Engineering has provided surveying, right-of-way, and other professional services to the telecommunications and power industry.
